

# Unika™ Calcium

A high quality and balanced Calcium, Nitrogen and Potassium fertiliser for your crop

Elemental composition	
Calcium	8.6% w/w
Total Nitrogen	14.2% w/w
Nitrate - Nitrogen	13.7% w/w
Ammonium - Nitrogen	0.5% w/w
Potassium	19.9% w/w

## What is Unika™ Calcium?

- High quality and easy-to-spread field grade product
- Fully soluble when spread
- Contains unique balance of Calcium, Potassium & Nitrate/Ammonium-Nitrogen
- Not suited to fertigation or hydroponic applications
- 25kg and 600kg bag sizes available.

## Nitrogen (Nitrate-nitrogen) features:

- Fast & uniform growth as nitrate is directly availability for plant uptake
- No volatile or soil absorbed nitrogen forms.
- A preferred nitrogen source for most horticultural and high value agricultural crops.

**Nitrate-nitrogen also increases the plant uptake of other cations including calcium, potassium & magnesium**

## Unika™ Calcium - Key Nutritional features

### Calcium improves:

- Storageability (improved shelf life)
- Skin presentation and firmness
- Disease tolerance
- Root development
- Climatic stress tolerance (ie heat, cold, windy conditions etc)

### Potassium improves:

- Cell wall strength
- Fruit shape, size, colour and sugar content
- Management of water use within the plant
- Synergistic effect with increasing efficiency of other nutrients
